AUGUST 2020 - PRESENT

LANGUAGES

- English - Advanced C1

CESAR OBEY AMENT AVILA

**ING. TECNOLOGÍAS DE LA
INFORMACIÓN Y NEGOCIOS
DIGITALES**

EXPERIENCE

Data Analyst

Consultora de Estrategias Comerciales MUNIN, Mar 2024 - Present

Responsible for capturing and processing data in MySQL databases. I use tools such as SQL, Excel, and Looker Studio to manipulate and analyze large volumes of information. This role includes generating detailed reports and data visualizations in dashboards, facilitating decision-making based on this data. By creating these reports, I provide insights that support the generation of strategies and operations for companies, ensuring accurate, accessible, and well-organized information for them to use.

Individual and Team Projects

Universidad Anáhuac Querétaro, Aug 2020 - Present

Member and leader of various projects such as:

- Creation and management of PostgreSQL and MongoDB databases
- Windows Server configuration
- Design and creation of websites with database services
